

# Outcomes Manager Release 2023.21

## Summary of Changes

Outcomes Manager Release **2023.21** contains the following:

### Reporting

- **Widget Dashboard**
  - **Date Ranges**

**Global** date ranges can now be selected and applied when viewing the **Dashboard**.

When defining date ranges, you can now choose from: **Earliest**, **Latest** or **All** dates.

See - [Date Ranges](#).
  - **Patient Drilldown**

Patient demographic data is now available for total counts, along with individual indicators.

See - [Patient Drilldown](#).

## GDPR

To comply with GDPR the following changes have been made to **Outcomes Manager**:

- **Collection & Management of Data Policy**  
This displays in all **Data Sharing Agreements**.
- **Deletion of Data**  
Following the deletion of a practice, their data is automatically removed.
- **Data Protection Message**  
A notification displays prior to viewing patient identifiable data.

Patient Identifiable Information

 This report contains private patient identifiable information and must be treated in line with data protection legislations for maintaining confidentiality.

Don't ask me again during this session.

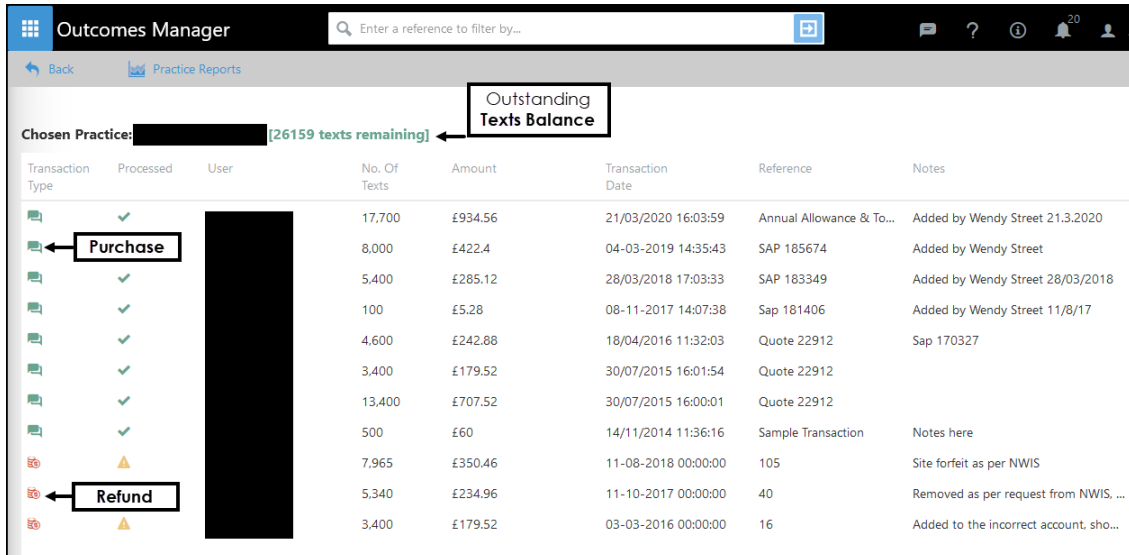

[Accept & Continue](#) [Cancel](#)

## Service Management

- **Distribution**  
The **Exclusion List** is now part of the **Distribution** options.  
There is now a separate option, **VA Distribution** for distributing **Pathways** to **Vision Anywhere** users.  
See - [Pathway Distribution](#)

## SMS Dashboard

- The **SMS Dashboard** has been redesigned to improve ease of use and reflect the new design of **Outcomes Manager** introduced last year.

See - [SMS Dashboard Overview](#).

## Administration

- **Administration Roles**  
To simplify the **Administration** functions, new **Administrator** roles have been created.  
See - [Administration Roles](#).
- **System**  
The **Notifications** section now uses a HTML editor enabling formatting of text, insertion of images and hyperlinks.
- **Service Management**  
Authorised users can now manage data extracts enabling you to delete or add data as required.  
See - [Reporting Data](#)

## General

- **Outcomes Manager** now contains an **About** box which details the version number and license type.

The screenshot shows the 'About' box for Outcomes Manager. It features the Outcomes Manager logo at the top left, followed by the product name and version number. Below this is a list of key information including license type, compatibility, contact details, and website URL. At the bottom, there is a copyright notice for Cegedim Health Care Solutions.
