Changes to MED3 (Statement of Fitness for Work) from September 2022

To support the change in legislation from July 1st 2022, creating an eMED3 (Statement of Fitness for Work) within **Vision 3** has been updated in England, Scotland and Wales.

Note - For **Vision 3** this update is released on top of your current DLM release providing you are on DLM 800 or higher.

Members of staff set up with the following **Staff Roles** in **Vision 3** - **Control Panel** - **File Maintenance** - **Staff** can now issue an eMED3 (Statement of Fitness for Work) from **Vision 3**:

Description	Profession on the eMED3
Practice Nurse	Nurse
Community Nurse	Nurse
Community Psychiatric Nurse	Nurse
Hospital Nurse	Nurse
School Nurse	Nurse
Contact Tracing Nurse	Nurse
Mental Handicap Nurse	Nurse
Nurse Access Role	Nurse
Nurse Manager Access Role	Nurse
Nurse Prescriber	Nurse
Nurse Practitioner	Nurse
Nurse Practitioner Advanced	Nurse
Physiotherapist	Physiotherapist
Occupational Therapist	Occupational Therapist
Pharmacist	Pharmacist

Additional Functionality in this Release

- When you select to save an eMED3 as a PDF, the file name now contains the patient name and saves to your individual subfolder for example, P:\WORDPROC\EMED3\User login name\EMED3_ NNNNNNNNNN_Forename_Surname_YYYYMMDD_hhmmss.pdf where:

  - **User login name** is your **Vision 3** log in name.

  - **NNNNNNNNNN** is the patient's NHS Number in England, Wales and Northern Ireland or CHI Number in Scotland.

  - **Forename_Surname** is the fornarne and surname of the patient.

  - **YYYYMMDD** is the date created.

  - **hhmmss** is the time created.

  This should make it easier to locate and identify eMED3s for sending on to patients.

- When you add a **Follow on MED3**, **Clinician** now defaults to the clinician currently logged on.

- The issue of clinicians with the following staff roles not completed in the **Profession** section of a eMED3 is addressed:

Description	Profession on the eMED3
Assistant	Doctor
Associate	Doctor
Non-commercial local rota of less than 10 GPs	Doctor
Commercial Deputising service	Doctor
Locum	Doctor
GP Register	Doctor
Sole Practitioner	Doctor
GP Retainer	Doctor

How do I get this update?

- **Vision 3** - This update is delivered to your system automatically via CentraStage.

See the [eMed3 section of the Consultation Manager Help Centre](#) for details of creating **eMED3s**.
