

SIS 10570 Vision Release

Summary of Changes

January 2021

The following changes are included in the **Vision 3** SIS10570 release:

Recording Immunisations using Vision+

- **Vision+** now allows for structured data entry for immunisations when recording data in **Vision 3**. To record immunisations:
 1. From **Consultation Manager**, select the patient and open a consultation if required.
 2. Record an immunisation either through a template or an alert.
 3. Select **Save** and **Close** on the template.
 4. The **Immunisations** screen displays:

5. Complete the immunisation details as appropriate.
6. Select **OK**, the immunisation information is written back to the patient's record.

Outcomes Manager

- **Rule Designer** - Rule Designer, the tool used by authors to create templates, now displays full codeset descriptions in a tooltip. This only displays when a template includes an **Active Repeats** control and shows **Side Effects**. Not all templates have this type of control.

Hover over column header to display full description in tooltip

Active repeat prescriptions\ side effects

Side effects: AKI - Acute kidney injury, ACh - Anticholinergic, Ble - Bleeding, Con - Constipation, LBP - Low blood pressure, Sed - Sedation.

Quantity	Dosage	Issue Date	AKI	ACh	Ble-Bleeding	LBP	Sed
