Please remember the following:

- The weekly reports have to be submitted on the Monday of each week that the schedule runs.
- Reports for previous periods after DLM297 is installed will not be retrospectively submitted.

HPA will make allowances for non-working days, so the reporting process creates and submits the report at the first opportunity on or after the expected date. In the majority of cases, practices will submit their report within the expected time frame.

For further information on managing the HPA swine flu extracts, please refer to the Clinical Audit on screen help or the DLM 297 user guide (http://www.inps4.co.uk/my_vision/downloads/dlm/index.html).

Read Q1 2010

Read Q1 is being distributed as part of SIS 10020. Please see http://www.inps4.co.uk/my_vision/vua/read-code-dlm/ for further details.
