

Did you know you can change the view in Clinical Audit?

You can change the view in Clinical Audit to only display audit lines with reminders attached.

This option is extremely helpful if you want to tidy up and remove any old reminders.

To only display audit lines with reminders attached:

1. From the **Vision 3 front screen**, select **Reporting - Clinical Audit**.
2. Select **Searches - Options** to view the search display options.
3. Select **Reminders Only**.
4. The view refreshes to display only audit lines with reminders attached.

Training Tip - To display all audit lines again, simply select **Searches - Options - All**.
