FLUAQIVOHP	Influenza aQIV (adjuvant) - OHP
FLUQIVROHP	Influenza QIVr (recombinant) - OHP

Select **Out of Practice** if you are recording a vaccine given outside of the practice for which you are not making a financial claim.

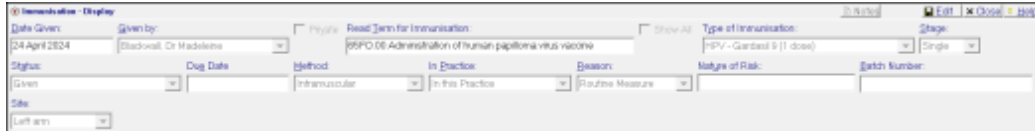

You may have previously relied on the Other Healthcare Provider immunisation type to indicate this.

Note - To use the above historic immunisation types tick **Show all** and select from the list.
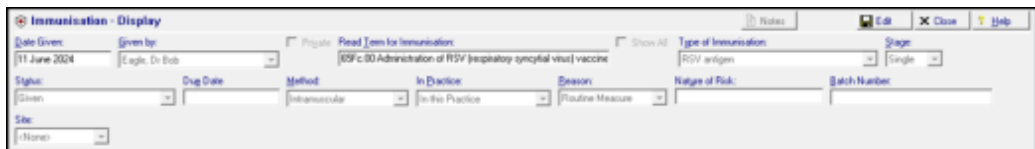

- **HPV - Gardasil 9 (single dose)** - (Dependency on SNOMED 37.6) A single dose Gardasil 9 regime is available in the **Immunisation** Structured Data Area (SDA).

Immunisation Code	Name	Read Term
HPVGARD9_1	HPV - Gardasil 9 (1 dose)	65FO.00

- **Respiratory Syncytial Virus (RSV)** - (Dependency on SNOMED 38.0) A new RSV vaccine product is available in the **Immunisation** Structured Data Area (SDA).

Immunisation Code	Name	Read Term
RSVAGEN	RSV antigen	65Fc.00

- The following COVID immunisations are removed from the current **Type of Immunisation list**:

Immunisation Code	Name
COVMEDICAGO	COVID - Medicago
COVOXFORD	COVID - AstraZeneca Vaxzevria
COVVALNEVA	COVID - Valneva
COVJANSSEN	COVID - Janssen

Note - To use the above historic immunisation types tick **Show all** and select from the list.

- **Consultation Manager Setup - Therapy** - The **Use Gemscript Posology Defaults** option is now unavailable and is enabled by default.

  > See Consultation Manager Setup - Therapy in the **Consultation Manager Help Centre** for details.

- **Consultation Manager Options** - **Use Advanced Printing** and **Use Print Profiles** are removed from the **Options** menu and **Advanced Printing** is enabled by default.

Daybook

- The issue of the task complete notifications not displaying when **Notify me, when task is complete** is selected, is addressed.

GP2GP

- The issue of GP2GP records filing MMR booster immunisations to **Vision 3** as a stage 1, is addressed.

Front Screen

- The **Vision 3** front screen and online help now use the Edge embedded browser. External page links now launch in the Windows default browser, which is usually Edge on **Vision 3** desktops.

Mail Manager

- **Provenance of Incoming Messages** - The **From** column now displays the origin of incoming Third Party messages, for example, practices that use Shared Care Services, or Third Party products such as **Accurx**, **eConsult** and **MedLink**.

- **Autofiling** - The message categories **NHS111 Report** and **Breast Screening System** are now available in the **Options** - **Autofiling** message list.
